Residents urged to take action now in case of groundwater flooding

We are urging residents across the county – but particularly in the south – to check their flood risk now and take action where Environment Agency flood warnings and alerts are in place.

[Subscribe](#)[Past Issues](#)[Translate](#) ▼

to Salisbury have Environment Agency flood warnings currently in place, which means that flooding is expected and people should act now.

People at risk of flooding should take steps now to protect themselves, their loved ones, pets and any valuables by moving them to a safe place. They should also put flood protection equipment in place if they have it.

Our Highways teams are continuing to monitor the situation across the county and responding to any reports of flooding, with teams on standby should they be required. Please note that the council does not supply sandbags, as it is a property owner's responsibility to protect their property from flooding. To find out more about this policy and where to buy sandbags, people should go to [Flood protection products and sandbags](#).

To report flooding, people should use [MyWilts](#).
